

CATECHESIS FORUM

Centre Jean XXIII, Luxembourg
Saturday 30 March 2019

The Church in Luxembourg, as in many other countries, is facing the challenge of how to provide catechesis in a changing social and educational environment. The aim of this forum is to share experiences and to exchange insights from the English-speaking Church in different parts of Europe and the wider world. The forum is intended to provide inspiration not only to the English-speaking Catholic Community but also to the wider Church in Luxembourg.

The event will be structured around a plenary meeting – the “forum” – in which invited speakers will challenge the participants to reflect on catechesis at different stages of life. The participants will then break out into smaller groups to discuss specific aspects of the challenge. Each breakout group will have a leader and rapporteur, who will provide a written report of the group’s conclusions to be shared with all participants after the meeting.
